

Go to www.ferc.gov

The screenshot shows the top portion of the FERC website. At the top left is the FERC logo and the text "Federal Energy Regulatory Commission". A search bar is located to the right of the logo. Below the header is a navigation menu with links for ABOUT, MEDIA, DOCUMENTS & FILMS, INDUSTRIES, LEGAL RESOURCES, MARKET OVERSIGHT, ENFORCEMENT, CAREERS, CONTACT US, and RESOURCES. The main content area is divided into several sections. On the left, there is a "What's New" section with several news items dated May 24, 19, and 18, 2016. In the center, there is a large blue banner with the FERC seal and a "CLICK TO PLAY" button. Below the banner is a row of four portraits of commissioners: Chairman Norman C. Bay, Commissioner Cheryl A. LaFleur, Commissioner Tony Clark, and Commissioner Colette D. Honorable. To the right of the portraits is a "Decisions & Notices" section with a "View All" link. At the bottom of the page, there are social media icons for Twitter, Facebook, and RSS, and a "What is FERC?" section with a "CLICK TO PLAY" button.

Scroll down to find and click on "FERC Online"

This screenshot shows the same FERC website homepage as above, but with a red arrow pointing to the "FERC Online" link in the left sidebar. The "FERC Online" link is located under the "Live Webcasts" and "Office" sections. The rest of the page content is identical to the previous screenshot, including the "What's New" section, the central banner, the commissioner portraits, and the "Decisions & Notices" section.

eComment

eComment does not require eRegistration
[Click here to Proceed!](#)

August 13, 2013 - eFiling and eComment are now compliant with Internet Explorer v10

IMPORTANT - READ BEFORE YOU BEGIN: After you submit an eComment request, you will receive an email from ferc.gov with a link to the comment system. Your system must not block emails from ferc.gov

Please create your comments in a Word or Text file (up to 6,000 characters) before you begin, then copy/paste them in the eComment Text Box to avoid time-out limits. The application will time-out after 30 minutes of inactivity.

If you are not filing as an individual or if you are filing a motion to intervene, you must have an eRegistration account and use the Commission's eFiling system.

FERC's eComment Option is limited to individuals filing up to 6,000 characters of text-only comments on their own behalf in the following proceedings:

- Hydroelectric License/Re-license Proceedings (P - Project Number),
- Pre-Filing Activity for Planned Natural Gas Projects (PF Docket),
- Applications for Authorization to Construct a Natural Gas Pipeline, Liquefied Natural Gas (LNG) or Other Facility (CP Dockets),
- Pre-Filing Activity for Permits to Site Interstate Electric Transmission Lines (PT Dockets), and
- Applications for a Permit to Site Interstate Electric Transmission Lines (ET Dockets).

You must have or create a full eRegistration account (not limited to eSubscription) and use the Commission's eFiling system if you are filing.

- On behalf of a company, agency, organization, association, or other non-individual
- A Motion to Intervene
- Comments exceeding 6,000 characters,
- Non-text material (exhibits, photos) or file attachments

Enter Docket Number: PF16-1 Search (e.g. CP08-10 or P-12483)

Docket	Description	Applicant/Filer	Select
PF16-1-000	Algonquin Gas Transmission, LLC, submits its Request for Approval of Pre-Filing Review for its proposed Access Northeast Project.	Algonquin Gas Transmission, LLC	

Selected Dockets:

Docket	Description	Applicant/Filer	Remove
PF16-1-000	Algonquin Gas Transmission, LLC, submits its Request for Approval of Pre-Filing Review for its proposed Access Northeast Project.	Algonquin Gas Transmission, LLC	

Comment: Jane Doe, East Freetown, MA.

I am writing to express my concerns about the Access Northeast project.

- *proximity of enormous tanks holding a volatile chemical to homes, schools, day cares and nursing facilities
- *pipelines can leak, rupture and explode
- *the extraction, transmission and consumption of natural gas is contributing to climate change
- *expanding natural gas infrastructure will only increase our country's already high dependence on natural gas, making it impossible to segue to renewable energy alternatives
- *Spectre has multiple violations listed on [FERC's](#) website
- **USA Attorney General's report concluded we do not need more natural gas
- *the public should not be forced to finance this project
- *National Grid & EverSource should not be allowed to write contracts making themselves their own customers on a business project in which they are partners

Lastly, I would like to respectfully request that FERC extend the public comment period deadline, which is currently set for May 31, 2016. Additional Resource Reports have yet to be released, therefore the comment period should be extended at least 30 days past the date of their release so that the public has a fair and reasonable amount of time to review the reports and submit informed commentary.
